

Liability for contents

The contents of the Food Tech Innovation Portal have been prepared with the utmost care. However, we cannot guarantee that the contents are accurate, complete and up-to-date. Pursuant to Section 7, Subsection 1 of the German Telemedia Act (TMG), as a service provider we are responsible for our own contents on these sites according to general statutes. However, pursuant to Sections 8 to 10 of the German Telemedia Act, we – as a service provider – are not obliged to monitor transmitted or stored third-party information or to search for circumstances indicating any unlawful activity. Any obligations to remove or block the use of information under general statutes shall remain unaffected thereby. Any liability in this regard is, however, only possible from the time when knowledge of a concrete violation of the law is obtained. We will remove such contents immediately as soon as any violations of law become known.

The Food-TIP website uses Google translator as a service to translate the content to any other language. HighTech Europe or any related organization will NOT be responsible for the quality of the translation, neither for any effect as a result of the use of the content.

Liability for links

Our offer contains links to external third-party websites whose contents are beyond our control. Therefore, we cannot accept any responsibility for such third-party contents. The provider or operator of the sites concerned is always responsible for the contents of linked sites. The linked sites were examined for any violations of law at the time of linking. No unlawful contents could be detected at the time of linking. However, a permanent check on linked sites in terms of content is not acceptable without any concrete indications of violations of law. We will remove such links immediately as soon as any violations of law become known.

Copyright

The contents and works prepared by DIL e.V. in the Food Tech Innovation Portal are subject to German copyright. In so far as the contents on this site have not been prepared by the operator but by project partners of HighTech Europe and members of the Associated Membership Platform, third-party copyrights will be observed. In particular, third-party contents will be marked as such. The reproduction, adaptation, dissemination and any kind of exploitation outside the limits of copyright require the written consent of the respective author or creator. Downloads and copies from this site are only permitted for private, non-commercial use. Should you nevertheless become aware of any infringement of copyright, please notify us accordingly. We will remove such contents immediately as soon as any infringements of rights become known.

Data protection

The use of our website is usually possible without providing any personal data. The data collected during registration for the Associated Membership Platform will not be disclosed to third parties without your express consent. You hereby agree that information which you enter into Technology Datasheets, Profile Datasheets, Infrastructure Datasheets or People Datasheets will be accessible to users of the Food Tech Innovation Portal. We point out that data transmission on the Internet (e.g. when communicating by e-mail) may have security flaws. Complete protection of data from access by third parties is not possible. We hereby expressly object to the use by third parties of contact details published as part of the duty to include a legal notice in order to transmit any advertising and information material which has not expressly been requested. The operators of these sites expressly reserve the right to take legal action in the event of unsolicited transmission of advertising material, e.g. by spam mails.
